POLICY ON REPORTING THE ANNUAL DISCLOSURE OF CRIME STATISTICS

The safety and well-being of all members of our community are of great concern to David Pressley School. A safe environment depends on the cooperation and involvement of individuals like you. We encourage all members of our campuses to use this report as a guide for safe practices on and off campus.

To comply with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, we prepare this report, working with several key people in administration, the Royal Oak Police Department, and Taylor Police Department. Each entity provides updated data on campus crime, arrest, and referral statistics.

Our schools have a voluntary confidential reporting system through which crimes can be reported to officials in the Administration Office.

This publication contains information to aid in the cooperative effort of creating a safer campus. It contains specific information on safety and security, crime prevention, policies relating to reporting crime, campus disciplinary procedures, and crime statistics for the three previous calendar years. These statistics reflect reported crimes that occurred on campus and on public property that is immediately adjacent to and accessible from the campus.

This publication will be posted on our website October each year. We notify all students, staff, and faculty of the website via informational postings within the campus. This information is reviewed in new student orientation class.

All current or prospective faculty, staff, and students can obtain a paper copy by asking at the administration Office. The Annual Security Report is also available on our website: www.davidpressleyschool.com.

CAMPUS SAFETY

David Pressley Schools have been fortunate in that serious crimes have never occurred on campus. The past does not guarantee that critical incidents will not happen in the future. We have taken numerous steps to enhance security in our buildings and on our grounds. In addition, we wish to provide all members of the schools' community with the facts about the policies and programs that are designed to increase safety and reduce crime.

The School does not have programs specifically designed to inform students and employees about the prevention of crimes. The School's crime prevention initiatives are based upon the dual concepts of eliminating or minimizing criminal opportunities, whenever possible, and encouraging students, faculty, and staff to be responsible for their own safety/security and the safety/security of others.

Crimes occur because criminals have the opportunity and desire to commit an illegal act. Since we cannot crawl into the head of the criminal who has the desire to commit a crime, we must work at reducing and eliminating the opportunity to commit a crime.

Crime prevention in school is different from that in the rest of the city because the population of the school community is being replaced regularly. Therefore, crime prevention programs must begin with new students and continue on an annual basis. We wish to stress parking lot safety on campus.

Some useful hints are:

- If you expect to be returning to your car after dark, park under a light.
- Always lock your car when leaving it unattended.
- Never leave valuables in your vehicle in plain view. Place them in your trunk.
- When returning to your car in the parking lot, have your keys ready before you get to the car.
- Look in the front and rear seats before you unlock the car. If someone is hiding in the car, walk away, make noise and phone police immediately.
- Feel free to ask a school employee to walk you to your car.
- If you should ever become the victim of any sort of crime, report it to the police immediately.
- Crime reporting is voluntary and can be done confidentially.

State:

Drugs and other substances that are considered controlled substances under the Federal Controlled Substances Act are divided into five schedules. Substances are placed in their respective schedules based on whether they have an accepted medical use,

their relative abuse potential, scientific knowledge regarding the drug, risk to the public and likelihood of causing dependence when abused. Schedule 1 drugs can be addictive and have no current known medical use. Examples of Schedule 1 drugs include heroin, lysergic acid diethylamide (LSD) and marihuana. **Michigan laws follow the scheduling that the federal law has established.**

Health Risks

- Cause cardiovascular conditions ranging from abnormal heart rate to heart attacks. Injected drugs can also lead to collapsed veins and infections of the blood vessels and heart valves.
- Cause nausea, vomiting and abdominal pain.
- Cause seizures, stroke and widespread brain damage that can impact all aspects of daily life by causing problems with memory, attention and decision-making, including sustained mental confusion and permanent brain damage.
- All drugs of abuse - nicotine, cocaine, marijuana, and others - effect the brain's "reward" circuit, which is part of the limbic system
- Paranoia
- Aggressiveness
- Hallucinations
- Addiction
- Loss of Self-Control

Alcohol Laws and Enforcement in Michigan

The drunk driving law in the State of Michigan makes it illegal to drive with a .08 percentage blood alcohol concentration (BAC) or above. The .08 limit is the standard measure of the "impaired" driver across the United States. Michigan has lower BAC limits for drivers under the age of 21 and commercial drivers. In addition to Michigan's OWI (Operating While Intoxicated) law, Michigan has another law called the OWVI (Operating While Visibly Impaired) law. This law means that because [drugs](#) or alcohol (or both) are in your body, that your ability to drive was visibly impaired. Operating a motor vehicle with any amount of a Schedule 1 drug (Cocaine, Barbiturates etc.) is illegal under Michigan's OWVI law. < <http://dui.drivinglaws.org/michigan.php>>

Under 21	.00% - Zero tolerance
21 or older	.08%
Commercial	.04%

When you can purchase alcohol:

Grocery/liquor Store (Off-Premise)	Sunday Restrictions	Bar Closing time
Monday to Saturday 7am to 2am Sunday 12pm to 2am	Businesses need a Sunday Sales License to service before noon.	2am

Effects on the body:

Heart:

- Cardiomyopathy
- Stroke
- High blood pressure
- Arrhythmias – irregular heart beat

Liver:

- Steatosis
- Fibrosis
- Cirrhosis

Cancer:

- Mouth
- Esophagus

- Throat
- Liver
- Breast

Immune System: Drinking too much can weaken your immune system, making your body a much easier target for disease. Chronic drinkers are more liable to contract diseases like pneumonia and tuberculosis.

Timely Warnings - Crime Alerts

Crime Alerts are the School's method of providing timely warnings to the campus community. Issued at the direction of the School's management, Crime Alerts inform the campus community of crimes the school considers to represent a serious or continuing threat to our students and employees. In evaluating what constitutes a serious or continuing threat, the management will consider factors including, but not limited to, crime type, location, likelihood of reoccurrence, and time of initial reporting. Once it is determined that there is a serious or continuing threat, management will draft and distribute Crime Alerts.

Crime Alerts issued by the school will contain information about the reported crime, location, dates of occurrence, suspect description(s) if applicable and safety tips. To protect the identity of a victim, certain information may be redacted or generalized. Redaction of specific information from a Crime Alert may also be done if release of the information would compromise the investigation of law enforcement. All redaction of information is done at the discretion of the management or his/her designee.

These alerts are generated by crimes reported to the management. When provided in a timely manner, Crime Alerts should aid in the prevention of similar occurrences. The alerts may be posted on the school's bulletin boards. If critical in nature, Alerts may also be sent to the campus community The School's Facebook page. No Crime Alert will ever identify a victim by name.

CAMPUS-WIDE EMERGENCY RESPONSE AND EVACUATION PROCEDURES

Students, faculty, staff and visitors are encouraged to report all crime, emergencies and suspicious situations to the administration office in a timely manner. All reports of crime, emergencies, and suspicious situations are immediately investigated by a member of the administrative staff. Victims or witnesses are encouraged to report crimes to the Administration Office on a voluntary, confidential basis for inclusion in the annual security report.

Emergency Notification

It is the policy of the school that upon confirmation of a significant emergency or dangerous situation which poses an immediate threat to the health and safety of any segment of the campus community the institution will, without undue delay, undertake measures to notify the community of the dangers present. Such notification applies to a wide range of emergency situations such as imminent threat from violent crimes, gas leaks, highly contagious viruses, tornados or hazardous chemicals release incidents.

The Management of the School, or other appropriate official, will determine whether a confirmed situation exists requiring an immediate Emergency Notification to be issued, and will determine content and distribution of the notification, depending upon the nature and extent of the situation. Other appropriate officials of the institution will be consulted as time permits and as appropriate in determining emergency confirmation, content of notification messages and appropriate communication modes. Determination as to appropriateness of campus wide evacuation rests on approval by the President/Acting Manager or designee.

When determination is made that an imminent threat exists, management will immediately convey emergency notification of the dangers present unless, in the judgment of the responsible authorities, doing so would compromise efforts to assist a victim, or to contain, respond to, or otherwise mitigate the emergency.

Notification methods, depending upon the nature and extent of the emergency and populations at risk, may include but are not limited to a combination of the following: activation of emergency siren or bells; notification through the schools' Facebook page; fire alarms; phone trees for students/staff and building contact persons; posted announcements on the Student Communication Board; posted announcements on all television News; text messages; David Pressley School App Emergency Alert; and notification by word of mouth. The institution will issue appropriate follow-up communication, as needed, advising as to the status of the situation and concerns deemed relevant to the campus population.

Students and employees should make themselves aware of physical limitations of students and coworkers which could impede their timely egress from buildings. Persons in these roles should notify available emergency response personnel of the location of the person and nature of limitations.

The emergency response plan will be tested bi-annually, and the campus community will be advised of the outcome of the test. These tests can take different forms and may be announced or unannounced. The tests are intended as learning experiences for responders and the community at large.

Documentation of the emergency response exercise will be kept by the Manager of the campus. It will include:

- a description of the exercise
- the date
- time and whether it was announced or unannounced.

The Royal Oak alert system was successfully implemented on: 1/13/2024 – power outage

The Taylor alert system was successfully implemented on: 1/13/2024 – power outage

The school management conducted fire drills in the spring and fall of 2023. The training equipped the participants to better prepare for, respond to, and cope in the event of a fire emergency evacuation.

Notification to the campus of the emergency response and evacuation procedures is made annually to students, faculty, and staff. It is included in the notice announcing the publication of the Annual Security Report.

Evacuation Procedures

In the event of a fire or any other evasive type of emergency, the school alarm will continuously sound, and the following is the correct action to be taken in an evacuation type emergency:

- Calmly move to the assigned exit door of your room.
- Follow the instructor out of the classroom to the assigned exit.
- Wait at the exit and be sure each student is out.
- Go to the alley behind the school.
- Stay together so roll call can be taken.

Classes that are evacuated through the front doors will circle outside the building where they will meet with the rest of the staff and students for roll call.

Do not stop to gather personal possessions other than those in the class. Do not go to lockers!!!! A life is worth much more than any material possession!

STOP CAMPUS HAZING ACT

At David Pressley School, we are committed to providing a safe and supportive environment for all of our students, staff, and faculty. Hazing in any form is strictly prohibited, and we take a firm stand against such activities. In accordance with the Clery Act, hazing is defined as any intentional, knowing, or reckless act committed against an individual for the purpose of initiation into, affiliation with, or maintenance of membership in a student organization, group, or team, that endangers the individual's physical or mental health or safety. This includes any behavior that creates a risk of physical or psychological injury or harm.

Reporting Hazing Incidents:

If you experience or witness hazing, please report the incident immediately to:

Phone: 248-548-5090

Investigation and Disciplinary Actions:

Reports of hazing will be thoroughly investigated. If an incident of hazing is confirmed, appropriate disciplinary actions will be taken, which may include suspension, expulsion, or other sanctions. In severe cases, hazing may result in criminal charges under local, state, tribal, or federal law.

Prevention and Awareness Programs:

Our prevention programs are designed to educate students, faculty, and staff about the dangers of hazing and to provide strategies to prevent it. This includes education on bystander intervention, ethical leadership, and how to build cohesive teams without the use of hazing.

By aligning our definition with the Clery Act, David Pressley School ensures that all hazing-related incidents are clearly understood, reported, and addressed in compliance with both institutional policy and federal law.

REPORTING SEX-RELATED OFFENSES AND INCIDENTS OF DOMESTIC VIOLENCE, DATING VIOLENCE, SEXUAL ASSAULT, AND STALKING

Royal Oak Campus

Individuals should report sex-related offenses and incidents of domestic violence, dating violence, sexual assault, and stalking to our Title IX coordinator, Casey McKinney, as soon as possible. Casey will help you file an incident report and will offer you the option of contacting ROPD. It is extremely important to preserve evidence as proof of a criminal offense or for obtaining a protection order. We will honor and respect your decision to pursue or not to pursue criminal or civil action.

Our Title IX coordinators will receive annual training on issues related to dating violence, domestic violence, sexual assault, and stalking, as well as how to conduct a hearing process that protects the safety of complaining witnesses and promotes accountability.

When a student or employee reports to the school that she has been a victim of date violence, domestic violence, sexual assault, or stalking, the school will provide them a written explanation of their rights and options.

Taylor Campus

Individuals should report sex-related offenses and incidents of domestic violence, dating violence, sexual assault, and stalking to our Title IX coordinator, Marcella Jones, as soon as possible. Marcella will help you file an incident report and will offer you the option of contacting TPD. It is extremely important to preserve evidence as proof of a criminal offense or for obtaining a protection order. We will honor and respect your decision to pursue or not to pursue criminal or civil action.

Our Title IX coordinators will receive annual training on issues related to dating violence, domestic violence, sexual assault, and stalking, as well as how to conduct a hearing process that protects the safety of complaining witnesses and promotes accountability.

When a student or employee reports to the school that she has been a victim of date violence, domestic violence, sexual assault, or stalking, the school will provide them a written explanation of their rights and options.

Disclosures to Alleged Victims of Crimes of Violence or Sex Offenses

If disciplinary proceedings are held, The School provides, in part, the accuser and the accused with the same opportunities to have others present during any institutional disciplinary proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisor of their choice. There is no limit to the choice of advisor or presence for either the accuser or the accused in any meeting or institutional disciplinary proceeding; however, the institution may establish restrictions regarding the extent to which the advisor may participate in the proceedings, as long as the restrictions apply equally to both parties. Both the accuser and accused will be informed of the outcome of the hearing. A student found guilty of violating the school's sexual misconduct policy could be criminally prosecuted in the state courts and may be suspended or expelled from the school for the first offense. Student accusers have the option to change their academic after an alleged sexual assault, if such changes are reasonably available.

The School will, upon written request, disclose to the alleged accuser of a crime of violence, or a sex offense, the results of any disciplinary hearing conducted by the school against the student who is the alleged perpetrator of the crime or offense. If the alleged accuser is deceased as a result of the crime or offense, The School will provide the results of the disciplinary hearing to the accuser's next of kin, if so requested.

The School's procedures are intended to afford a prompt, fair, and impartial investigation and resolution of the complaint.

SEX OFFENSE, DOMESTIC VIOLENCE, DATING VIOLENCE, SEXUAL ASSAULT, AND STALKING RESOURCES

When a student or staff member reports an incident involving sexual assault, domestic violence, dating violence, or stalking to our Coordinator they will be provided with information about victim assistance programs located in our area.

The Violence Against Women Act (VAWA) was the first major law to help government agencies and victim advocates work together to fight domestic violence, sexual assault, and other types of violence against women. It created new punishments for certain crimes and started programs to prevent violence and help victims. Over the years, the law has been expanded to provide more programs and services. Currently, some included items are:

- Violence prevention programs in communities
- Protections for victims who are evicted from their homes because of events related to domestic violence or stalking
- Funding for victim assistance services like rape crisis centers and hotlines
- Programs to meet the needs of immigrant women and women of different races or ethnicities
- Programs and services for victims with disabilities
- Legal aid for survivors of violence
- Services for children and teens

The National Advisory Committee on Violence Against Women works to help promote the goals and vision of VAWA. The committee is a joint effort between the U.S. Department of Justice and the U.S. Department of Health and Human Services. Examples of the committee's efforts include the Community Checklist initiative to make sure each community has domestic violence programs and the Toolkit to End Violence Against Women, which has chapters for specific audiences.

Definitions

Domestic Violence - Domestic violence consists of abusive behaviors that are committed by someone with a qualifying relationship with the victim.

Abusive behaviors include: emotional/ psychological, physical and/or sexual abuse, harassment, threats, intimidation, forcing someone to participate in illegal activities such as selling drugs or stealing, or depriving someone of necessities such as food or medicine.

The qualifying relationship includes a past or present spouse or intimate partner, a person with whom the victim shares a child in common; a person living in the same apartment, house or residence hall room or by a caregiver regardless of gender identification or sexual orientation of the abuser or the victim.

Sexual Assault - Any form of non-consensual sexual activity.

Sexual assault includes all unwanted sexual acts that range from fondling to attempted rape or rape.

Rape is defined as penetration “no matter how slight” of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim. Sexual assault also includes sex with minors (e.g. statutory rape or incest), sex between a minor (i.e. age 17 or younger) and a person who is 18 years or older & holds a position of authority over the complainant.

Stalking - Engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for their safety or the safety of others or to suffer substantial emotional distress.

Stalking may be comprised of legal and illegal behaviors that occur over time and are harassing in nature because of their content, frequency, and unwelcome nature. Stalking may be an outgrowth of domestic violence, an attempt to pursue a relationship, or arise out of a conflict or dispute.
